## EXPERIENCE THE HEAVY WATER CELLAR

One winter night in February 1943, a group of Norwegian special forces soldiers risked their lives in the heavy water cellar.

Now the same area is open to you.

The heavy water cellar opens on 18 June 2022

## THE HEROES OF TELEMARK

Norsk Hydro's heavy water production at Vemork was an important part of the Nazis' nuclear project during World War II. So important that as many as four perilous military operations were initiated to stop it.

Who were the young Norwegian soldiers who risked their lives to carry out one of the most important and spectacular military operations during World War II? How did they do it?

Visit the heavy water cellar at Vemork.

## A SECRET SEES THE LIGHT OF DAY

In the autumn of 2017 archaeologists from Telemark county municipality uncovered a well-kept secret under the ground at Vemork.

They found the heavy water cellar completely intact! There, time had stood still for 40 years. This year the doors are being opened for you.

The story of the heavy water cellar has spread all over the world. It has been retold in TV series, documentaries, podcasts, articles, books and in films.

See what everyone's talking about. See the heavy water cellar.
